

Stainless Steel Plaster and Sand Separator SLZN 64, SLZN 64N

Characteristics:

- suitable for medical facilities
- material AISI 316L, brushed finish
- removable bucket, easy clean
- 2 galvanized consoles
- volume 13 l

Use:

The plaster separator is used in the hospitals for separating of plaster, clay and other heavy particles from the water.

Plaster settles in removable bucket, this system prevents clogging of waste pipes by plaster.
